

ABOUT US

SEAMLESS SOLUTIONS

Consym Sdn Bhd, incorporated in Malaysia since established in year 2002, provides seamless solutions for corrosion and purity issues in the chemical, petro-chemical, oleo-chemical, biodiesel, pharmaceutical, semiconductor and electronics industries. Backed by an experienced and highly skilled team, our manufacturing site is fully equipped to handle projects from design phase to high volume production and final testing including material handling with full traceability.

01 Our Business Activities

Consym is a manufacturer of PTFE lined pipes and fittings and a distributor of PTFE lined valves, lined pumps, safety shields and PTFE hoses. The company is accredited with ISO 9001-2015 Standard, delivering innovative, reliable and quality products to our customers. Our strength lies in our technical capabilities, skills and experience in the design and manufacturing of customized products such as sight glass, lined nozzles, dip pipes, injectors, thermowells, lined couplings and special vessels to meet the specific requirements of customers.
