

SHUT OFF, CONTROL AND SAFETY VALVES

- ➔ Lining PFA, PTEE and antistatic
- ➔ For corrosive, hazardous, contaminated, pure and high purity fluids
- ➔ Butterfly valve up to DN 1000 (40")
- ➔ ISO/DIN + ASME/ANSI standards
- ➔ DN 15 - 400 (1/2" - 8" on ball and diaphragm valves)
- ➔ Temperatures up to 200 °C (400 °F)
- ➔ Manual and remote-controlled
- ➔ Clean air act and FDA options

Safety down to the last detail

Chemical process pumps, shut-off, control and safety valves for corrosive, hazardous, contaminated, pure and high-purity fluids.
